

Austrian National Agency (Top-up Criteria in 2025):

- Students with duty of care to their children, who take their children on Erasmus+ mobility
- Students with disability
- Students with chronic disease, if extra costs occur during the mobility in comparison to the costs usually occur relating to the disease in the sending country

Optional for higher education institutions:

- outgoing students and recent graduates whose parents do not have a university entrance qualification
- incoming students and recent graduates from least developed countries
